### **Lafayette, IN - June 18, 2015 – For Immediate Release**

West Side Tractor Sales was founded 53 years ago in Lisle, Illinois on the west side of Chicago as a John Deere Construction and Forestry dealer. In 2010, West Side acquired five John Deere construction stores throughout Indiana, including the Lafayette location. The West Side Lafayette store has been unique in providing our core construction products along with John Deere's lawn and garden products. This combination of product lines is unusual across John Deere's dealer network.

**With that said, West Side will no longer offer John Deere lawn and garden sales, parts and service support after September 18, 2015.** These products include compact utility tractors, riding mowers, zero turn mowers, and Gator utility vehicles. West Side and John Deere are actively working to transition West Side's John Deere lawn and garden business to existing dealers around the Lafayette area. Below is a list of dealers we recommend who can provide John Deere lawn and garden parts, service, warranty and sales support:

- West: Castongia's Fowler: (765) 884-0411
- East: Tri-Green Tractor Frankfort: (765) 654-6612
- North: GreenMark Equipment Monticello: (574) 583-7117
- South: AHW Crawfordsville, IN (765) 361-3300

**West Side will continue to sell and service Scag Commercial Mowers, Stihl Power Equipment, and Honda Generators and Pumps. West Side will also provide parts, sales and service support for Kawasaki, Kohler, Briggs and Stratton, and Subaru engines.**

**As Indiana's exclusive John Deere Construction and Forestry dealer, we will continue investing in our construction business during and after this transition.** We are thankful to our long time lawn and garden customers and the Lafayette community for the friendships we've built over many years. Thank you for supporting us as we make this transition. Our team in Lafayette is here to support you throughout this process.

For more questions or concerns about this transition, contact the Lafayette store at (765)-447-6933.
